

## Perturbation convergence on module 5

protein localization  
cellular macromolecule localization  
macromolecule localization  
establishment of protein localization  
protein transport  
nitrogen compound transport  
establishment of localization in cell  
intracellular protein transport  
intracellular transport  
protein localization to membrane  
localization within membrane  
protein localization to organelle  
regulation of protein localization  
positive regulation of protein localization  
regulation of cellular localization  
establishment of protein localization to organelle  
regulation of localization  
protein targeting  
regulation of establishment of protein localization  
positive regulation of establishment of protein localization
