

Perturbation convergence on module 13

cell adhesion
T cell migration
lymphocyte migration
cell adhesion mediated by integrin
mononuclear cell migration
integrin-mediated signaling pathway
leukocyte migration
cell-cell adhesion
cell-matrix adhesion
regulation of leukocyte migration
cell motility
positive regulation of leukocyte migration
wound healing, spreading of cells
epiboly
epiboly involved in wound healing
morphogenesis of an epithelial sheet
positive regulation of T cell migration
regulation of T cell migration
cell migration
cell-substrate adhesion
