Perturbation convergence on module 6

response to external stimulus
response to external biotic stimulus
response to other organism
response to biotic stimulus
biological process involved in interspecies interaction between organisms
defense response
defense response to other organism
defense response to symbiont
immune response
immune system process
innate immune response
regulation of response to external stimulus
inflammatory response
regulation of defense response
regulation of immune response
regulation of immune system process
response to bacterium
positive regulation of immune response
positive regulation of immune system process
positive regulation of response to external stimulus
