Perturbation convergence on module 7

programmed cell death
cell death
regulation of programmed cell death
apoptotic process
regulation of apoptotic process
negative regulation of programmed cell death
negative regulation of apoptotic process
positive regulation of programmed cell death
positive regulation of apoptotic process
apoptotic signaling pathway
regulation of apoptotic signaling pathway
cellular response to stress
intracellular signal transduction
extrinsic apoptotic signaling pathway
protein phosphorylation
negative regulation of apoptotic signaling pathway
phosphorylation
regulation of protein modification process
regulation of extrinsic apoptotic signaling pathway
positive regulation of protein modification process
